HOKE COUNTY BILL PASSES

Final Reading in House Last Night.

Senate Bill Creating Hoke County Out of Portions of Cumberland and Robeson Passes House by Vote of 73 to 9—Hobgood Introduces Bill to Validate School Bond Issue—House Refuses To Concur In Senate Amendment to Kent Bill.

Raleigh, Feb. 15.—The House tonight by a vote of 73 to 9 passed on third and final reading the Senate bill creating Hoke county out of portions of Cumberland and Robeson.

The Senate.

President Newland convened the Senate at 11 o'clock and Rev. Hight C. Moore offered prayer.

New Bills.

Hobgood: Legalize $30,000 school bond issue for Greensboro.

Hobgood: Prohibit conduct in North Carolina interfering with trade and commerce. It adds to the present anti-trust law the essential features of the Sherman law.

Hobgood: Extend the time within which actions for damages can be brought for death caused by negligence of another. Amend Guilford county road law.

The House.

The House was convened this morning at 10 o'clock by Speaker Dowd. Prayer by Rev. Mr. Taylor, of Raleigh.

Favorable reports came from committees as to many bills including Wolten bill for placing solicitors on salaries; State bill for taxing dogs and encouraging sheep industry; provide institution for feeble-minded; provide for the examination of school children. The last two were again referred, this time to the committee on appropriations.

The propositions and grievances committee presented its unfavorable report on the Koonce resolution for commission to investigate conduct of fire insurance companies in North Carolina and Mr. Koonce sent up his favorable minority report. The resolution was then set for special order Monday night, February 20.

The state highway commission bill was made a special order for February 17 after the morning hour.

New Bills.

Turlington: Prohibiting conduct in North Carolina which interferes with trade and commerce. The bill codifies the present law; amends sub-section "f", making it "g" and making it read "conspire or agree" instead of "simply conspire," placing $10,000 at the disposal of the governor for prosecutions. Also giving attorney general power to summons witnesses and compel testimony in preliminary investigations.

Nunn: Amend Revisal as to tax on fraternal and beneficial orders.

The Kent near-beer bill that went from the House to the Senate where amendments were added effecting the kind of drinks druggists will be permitted to sell, was reported back with amendments for concurrence. This the House refused to do and Speaker Dowd named Hoffler, Kent and Gates as the committee from the House. Before this there was a motion by Kent that the House concur. Hoffler offered a substitute that the House do not concur and the latter carried on a tie vote with the Speaker casting the non-concurrence motion.

Hoke County Held Up.

Mr. Weatherspoon lodged a motion that the rules be suspended and the bill creating Hoke county be passed on its final reading. This was opposed by Mr. Ross, of Cumberland, who insisted that if the bill must pass there were important amendments that must be considered. The House refused 53 to 33 to suspend the rules and the bill remains on the calendar.

Mr. Quickel attempted to get the Hoke county bill fixed as a special order for Wednesday night. Speaker Dowd ruled that would require suspension of rules. The rules were suspended and the special order made in conformity with the motion.

The House made the Rawles bill to tax dogs a special order February 21 and the governor's salary bill from the Senate for February 22.

The Ewart bill to provide for inspection of all whiskies and other intoxicants shipped into North Carolina and imposing an inspection tax of 25 cents per gallon was considered at considerable length by the House committee on liquor traffic, most of the time being given over to a discussion and exposition of the bill by its introducer who represented to the committee that there was shipped into North Carolina during the past year not less than three quarters of a million dollars worth of intoxicants inspite of the prohibition status and that a great part of it was adulterated and poison to a degree. He would maintain inspection much as the oil inspection is maintained. Members of the committee put many questions to Mr. Ewart and finally reached the view that the bill properly belonged to the judiciary committee and the appropriations committee, deciding in the end to return it to the House for reference to these committees.

TAFT SURPRISED.

Says He Had No Idea of Annexing Canada When He Championed Reciprocity Bill.

Washington, D. C., Feb. 15.—President Taft today, to some of his congressional callers, expressed astonishment that Representative Clark should have injected into the reciprocity question in the House yesterday any thought about the annexation of Canada. The White House is said to regard the remarks of Mr. Clark as most unfortunate and the President has made it known that he would like to have it understood throughout the world that his administration has no thought whatever of annexation when the reciprocity agreement was arranged.

The President, it is said, is hopeful that the people of this country, Canada and Great Britain will look upon the speech of Mr. Clark merely as the expression of an individual.

Caught In Burlington.

Sheriff Jones received a phone message from Burlington last night, stating that George Sherrill, a notorious negro, who escaped from the county roads some time ago, had been caught, being shot by the officer who made the arrest. The wound is not dangerous and the negro will be brought to Greensboro at once. It will be remembered that Sherrill is the negro who stole a quantity of meat from several farmers, the case being worked up by Deputy Crutchfield. He was convicted and given two years on the roads, escaping before he served half his sentence. He escaped about a month ago.

APPROPRIATION BILL DISCUSSED

After Two and a Half Hours of Argument Pro and Con Action Was Deferred Until This Morning When the Bill Will Be Again Considered.

Raleigh, Feb. 15.—Senator Boyden's bill to appoint a state building commission and authorize the governor and state treasurer to issue $1,000,000 of bonds to erect a state administration building in Raleigh, came up as a special order at twelve o'clock today in the Senate and after a debate lasting two and a half hours further consideration was postponed until ten o'clock Thursday morning.

When the bill was read Senator Barnes stated that he had been informed that the appropriations committee, which had reported it favorably, had not considered the bill and its amendments. Chairman Long, of the appropriations committee, and Senator Cox, who made the committee report, said five senate members and seven house members attended the joint meeting and decided on a favorable report. Senator Barnes urged that the bill be re-referred. Senator Brown and Senator Rascoe also wanted it re-referred, but Senator Pharr opposed this course and said the question should be settled at once. Senators Barnes and Brown continued their fight on the bill throughout the spirited debate which ensued. Senator Barnes thought $500,000 would be sufficient to erect an adequate building for the various state departments and Senator Brown offered an amendment naming the sum at $250,000. Other amendments were offered by Senator Rascoe to have the president of the senate appoint a committee to ascertain exactly what the additional land on the square north of the capitol will cost. Senators Martin, of Washington, and Bassett wanted to strike out the $50,000 mentioned in the as the limit for purchasing the land. Senator Martin, of Buncombe, offered an amendment giving the commission power to secure another site if the land cannot be secured for $50,000 and Senator Hartsell sent forward an amendment providing that the commission shall secure the additional half square by purchase or condemnation. Senator Baggett's amendment calls for the appointment of the commission by the legislature instead of by the governor. Senators Graham and Hicks offered amendments striking out the provision which exempts the bonds from taxation. Senator Starbuck offered an amendment leaving the $50,000 stipulation in the bill. Senator Ivie opposed the bill on the ground that he was not in favor of spending $1,000,000 of the state's money unless he was assured as to how it will be spent and until the senate is informed as to the plans and character of the structure to be erected. Senators Boyden, Pharr, Bassett, Sikes, Johnson, Long and McLaughlin argued for the passage of the original bill without any amendments, but finally the motion of Senator Hicks to postpone further consideration until 10 o'clock Thursday prevailed.

Decision on Big Thread Company.

London, Feb. 15.—Justice Hamilton, sitting in the Kings Bench division of the high court of justice today rendered a decision that the American Thread Company, incorporated under the laws of New Jersey, was liable to an income tax assessments in this country on profits amounting to $900,000.

The justice held that although the mills and business of the company were in America, the fact that most of the common stock was held here and that the directors in England were highly concerned with the direction of its affairs brought the concern within the provisions of the British income tax act.

Superior Court.

In Guilford Superior court yesterday but little was done. In the case of W. F. Clegg vs. S. A. Caviness and J. A. Mann a judgment for $28 was given. All the other cases set for the day were disposed of by continuance, nonsuit, etc., and court adjourned for the day after being in session less than an hour. There are seven cases on the calendar for today.

Mr. D. E. Harllee To Wed.

MONTAGUE PAYS DEATH PENALTY

Granville Murderer is Electrocuted.

Murderer of Sanders Family Makes Full Confession Before Being Placed In Electric Chair, Telling of Diabolical Crime In Detail—Relatives of Victims Watch Negro While Current Stills His Heart.

Raleigh, Feb. 15.—At 10:30 o'clock this morning in the presence of thirty spectators, several of whom were close relatives of his victims Nathan Montague, the negro who criminally assaulted Miss Mattie Sanders, murdered her and her father and little niece, in Granville county December 19 ,paid the death penalty by electrocution in the state's prison here.

In a full confession he completely exonorated Lonnie Bridgers and Alvin Cook, negroes whom he claimed heretofore of being with him and really committing the murders. He says he worked at the Sanders home that evening and laid his plans against Miss Sanders. He had supper in the kitchen and helped shell corn.

Then Mr. Sanders told him to go home, a quarrel developed and he killed Sanders by beating him over the head with a chair. Then he killed the little girl, Irene Overton, with the chair and ran into the yard after Miss Sanders who fled screaming. He overcame her and finished his work of outrage and murder. Then he assembled the bodies in the house, poured oil from a lamp and set the place on fire. It was his knife dropped in the yard after he had used it on Miss Sanders, that led to his arrest. Then clothing and other articles taken from the house were found in his room. He was tried and sentenced in a special term of court under the guard of two companies of militia. This was on January 16.

Relatives of the victims of the negro here to see his death in the electric chair were Hart Overton, Granville, father of the little girl murdered; and Willis Sanders, son of J. L. Sanders and brother of Miss Mattie Sanders, the other two victims of the negro fiend. The electrocution was without special incident, the negro having no further word and manifesting wonderful self-control.

GILMER HELD ON MURDER CHARGE

Committeed To Jail To Await Trial At February Term of Court—Several Cases Before Judge Eure Yesterday Morning.

In Municipal court yesterday morning Claude Gilmer was given a preliminary hearing on the charge of murder. Gilmer is the negro who on Monday night shot and killed Connie Garrett, the shooting being the culmination of a fracas participated in by the two negroes. As a result of the hearing Gilmer was committed to jail without bail to await trial at the February term of Guilford Superior court for the trial of criminal cases, the term to begin on Monday, Feb. 27.

The evidence was about as given in The Telegram Tuesday morning, it being evident that liquor played a prominent part in the quarrel, which had such a fatal ending. When placed on the stand yesterday Gilmer declared that he knew nothing after leaving the hall until his arrival at his home. He said that he did not know whether he killed Garrett, but supposed that he did. None of the witnesses examined saw the fatal shot fired.

Babe Atwater, who was with Gilmer and Garrett at the time of the killing, or immediately preceding the firing of the fatal shot, was charged with carrying a concealed weapon, Gilmer declaring that he procured the pistol from Atwater. No evidence introduced showed that the weapon was concealed and a verdict of not guilty was entered.

Vernon Bouldin, the negro who led Officer McCuiston such a merry chase Tuesday, was charged with carrying a concealed weapon. He was given four months on the roads. In another case Bouldin and Mattie Caveness, a negro woman, were charged with an affray. Bouldin was given thirty days on the roads, in addition to the above sentence, while the woman was sent to the workhouse for thirty days.

Jim Boyd, a young white man, was charged with forcible trespass, the warrant being changed to read simple assault. He was fined $10 and costs. Boyd is the man who about two weeks ago entered the home of Maude Reinhart and assaulted her.

A STRANGE EXPERIENCE

Three Guilford People Report a Narrow Escape.

Mr. M. C. Workman, Col. A. C. Boone and Mr. J. H. Buchanan are spending the winter in Florida. In a letter received here from one of them a somewhat unusual experience is narrated.

The three gentlemen were out walking recently through the lakes and woods of the locality where they are stopping. Becoming fatigued, it was suggested that they sit down and rest. What appeared to be an old moss-covered log was selected as a seat.

The tourists from Greensboro and Pleasant Garden sat down for a rest and were talking about affairs in the home state and other matters. They had been sitting for about thirty minutes when, according to the letter which was received here, Col. Boone discovered that the seat was slowly but surely moving. A little investigation showed that in the half hour their seat was quite a little distance from where it was when they first selected it. In fact, there seemed to be an affinity between the seat and the lake nearby and the Guilford people were actually in a fair way, it seemed, to be carried into the water by the slow, almost imperceptible motion of the suposed log.

In alarm they sprang to their feet and let the log glide into the water without its passengers. They then saw that they had used as a seat the back of one of the immense aligators which infest the lakes of Florida. The 'gator was making his way back into the lake and that fact explained the motion of the suposed moss-covered seat.

The gentleman who wrote of this narrow escape added:

"There is no telling how many people get carried away in this way while in Florida and are never heard from again."

Pupils' Recital.

The program will bring together men from all walks of life, many of them with national and international reputation, in order that every phase of the South and its resources may get full treatment. NOT A SECTIONALIST.

Governor Woodrow Wilson Has Been Honored and is Claimed by Both North and South.

New York Times.

Gov. Woodrow Wilson, of New Jersey, is not inclined to let anyone forget that he is a Southerner, although until recently he has been chiefly known to the country as the president of a Northern university and even more recently as the man who took by storm the highest political office in a Northern State. Friends who have applauded most emphatically when he has been greeted at dinners here as the next President of the United States take satisfaction in pointing out the national character of Mr. Wilson's career and prominence. He has studied and worked in both the South and the North, and he has ben honored by degrees from both Northern and Southern colleges. Then, too, they point out, as executive of a national university, he has had for years the opportunity to know and be known by its graduates in every state in the Union.

Governor Wlison likes to remind people of his affectionate regard for the South and his belief in its traditions and its future. He was born in Virginia and studied law in that State. He married a Georgia girl and practiced law in Georgia. In pleading the other night for generous support of Berea College and its aims, he said :

"You have had your quarrels with the South, but you at least own that the South knows how to quarrel, that the South knows how to argue its case, and that the South stubbornly based its cause upon what it believed to be political traditions, and with that stubborn political conservatism there nevertheless goes the most radical sympathy with the common, ordinary people of this country, with what I believe is, using a small 'd' and not a big one, the real democratic foundation of our life.

"You speak of the South as if its traditions were aristocratic, and yet you know that more than any other part of the country it has been persistently democratic."

There was applause here that mingled with laughter, when Governor Wilson said with a whimsical smile:

"Now, I do not know whether you want to subscribe to the strength of democracy or not, but I would commend it to you as a hopeful enterprise."

This speech at Carnegie Hall was not the first time Governor Wilson had emphasized his Southern sympathies. He spoke the same evening at the gathering of the Kentuckians, and when the Southern Society dined he sat at the toastmaster's right and won everybody's heart by proving a past master at telling darkey stories in dialect.

Governor Wilson was born in Staunton, Va., and studied law at the University of Virginia. He took his Ph. D. at Johns Hopkins. The degree of LL. D. has been conferred on him by institutions in North Carolina, New Orleans, Maryland, New Jersey, Pennsylvania, Rhode Island, and New Hampshire. Yale gave him his Litt. D. He has taught in Bryn Mawr College and Wesleyan University. That, his friends say, is geographically a fairly wide range of experience for one man.

The Tables Turned

An Awful Revenge Turned on the Revenger

By WILLIAM G. EMERSON

Copyright, 1910, by American Press Association.

It was in buccaneering times in the West Indies. An English ship, the Penguin, was sailing between Vera Cruz and Puerto Cabello, in Honduras, when she was attacked by pirates. Captain Hazeltine of the Penguin, having four swivel guns on board, two port and two starboard, or larboard and starboard, as the terms then were, with plenty of muskets and cutlasses, gave the pirates a fight that cost them one-third of their number in killed and wounded, mostly killed. But the pirates were too strong for the merchantmen, who were at length overpowered.

The captors were so irritated at the fight they had been put to and their loss that they resolved to inflict a torture upon Captain Hazeltine, to whom they were indebted for both, as they well knew, for it was he who had led every movement against them. They forced every person on the ill fated Penguin to walk the plank except Hazeltine, whom they put in irons down in the hold. Then the pirate commander invited suggestions as to methods of execution that would give the most suffering.

Many of the plans that were handed in were impracticable, since the pirates did not possess the means of carrying them out. One struck the captain's fancy as soon as it was proposed. It was that they should bury their victim up to his chin in the sand at receding half tide, so that on its return it would gradually drown him. Death would thus confront him for hours and would linger when it came.

It seemed to the pirate that this mental strain on a man in sound bodily health would be far worse than physical pain. He ordered his craft headed for the shore and anchored near a beach. On arrival the boats were lowered and filled with eatables and cases of wine that had been taken from the Penguin, for the pirates had determined to have a spree on shore, where they could have plenty of room to stretch their legs. However, their numbers were so reduced by the fight they had been through that one boat sufficed, and, since two men were left to guard the ship, but five men, including the captain, went ashore with the victim.

They found the tide within an hour of the ebb. Burying Hazeltine on the verge, he would see the tide recede for an hour, then return for an hour. The pirates faced him toward the water, leaving only his head exposed. His arms were placed close to his flanks, and when his executioners had stamped on the sand about him he felt himself in a vise. Having finished their work, they carried their supplies a little farther up on the beach and began to eat, drink and be merry.

Hazeltine soon discovered that no more frightful death could be devised. He watched the tide recede, pause and begin its return. By this time the pirates were very drunk, screaming and fighting like madmen. Hazeltine hoped some one of them, infuriated by liquor, would come and cleave his skull with a cutlass. But he was disappointed.

And now the first wave reached the victim's chin. The next did not come so high, nor the next, but the fourth washed his jaws. When it receded it took an inch of sand from under his chin. The next wave took more, and successive waves left his throat bare. But while the sand was sucked away in front it was piled up at the back of his head.

By this time the yells of the pirates were few and soon ceased altogether. They had intended to watch their prisoner die, but had got drunk instead.

The waves, dashing over Hazeltine while he held his breath, kept sucking sand from his front. Finally he could work his body backward and forward. The water poured in around him and softened the sand. By an effort he freed his arms and dug with his hands. In a few minutes he was free.

Looking about him, he saw the pirates lying in a drunken stupor. His first impulse was to run, his second to take their boat and pull away. His third—oh, his third marked a great change in him. Seeing the shovel with which the pirates had dug his grave, he seized it and dug five other graves a few feet above where his would be executioners had dug his own. Then, taking up a pirate, he put him into an upright hole and filled in the sand about him. Then he buried another and another till all were up to their chins in sand. Some of them awakened, but did not realize at first where they were. Others were too drunk to know anything.

Half an hour later the water reached them and sobered them. The sand gave way before them, but Hazeltine threw more sand in its place, maintaining his position and theirs until the waves rolled above their heads.

But Hazeltine was not satisfied. Waiting till night had fallen, he rowed in the boat to the ship and, armed with captured weapons, stealthily climbed the side. The two men who had been left aboard had imitated the example of those who had gone ashore and drunk themselves to sleep. Hazeltine dispatched them and threw their bodies overboard.

Two days later a British man-of-war, looking for the pirates, spied her at anchor, fired a shot and, meeting no response, sent a boat to her. They found one man—Hazeltine—on board.

It is the fashion of Spring this season to make pop-calls.

Now doth the thoughts of the young Benedict turn to the problem of how to make one chop grow two where it grew but one before.

Now that near-beer has been disposed of, something should certainly be done about the club evil, else we may soon be reading signs like this: Dew Drop Club; Lockers One Dollar Per Month.

John Wilson, proprietor of a "social club" in Salisbury, was convicted on Saturday for selling liquor. But his system was likely patterned after that of the Charlotte club.

The fight for the parcels post, so far as our more numerous classes of citizens are concerned, seems to be between the farmers and the merchants; the farmers petition for it and the merchants against it. But the question is, How are the congressmen at Washington going to determine which class deserve the greater consideration?

Mr. Champ Clark is a good Democrat, but his assertion that England will soon be glad to turn over to the United States her possessions in North America will do more harm than good. The English press interprets his remarks as an American sentiment, and Canada will certainly think no better of us for leading her to believe that a great trade agreement is but an invitation to break with England and join the republic.

Senator Bailey, of Texas, has come to the aid of Lorimer, the Illinois Senator who obtained his seat by corrupt methods, excusing the latter on the ground that the proportion of corruption was too small to operate against a man otherwise worthy of the honor. But what kind of a Senate would we have, if it were possible for such methods to avail in every State? Worse still, what confidence would the world have in our institutions and in the people under them? Honor falls upon the great sinner; he that would sit in the seat of the mighty may steal votes; he that would lie disgraced in a prison-house may filch to save his body from want.

In one county in Texas the cotton yield was diminished by more than 1000 bales during the year in which the boll weevil appeared. We may thus get some idea of what a destructive pest this little insect is. Some one has written to Governor Hoke Smith, of Georgia, apprising him of a nefarious scheme to turn loose a few weevils in Georgia. No one can conceive a possible benefit which could accrue to anyone in any way by such a wicked act, and the report is believed to be a hoax on the Governor, perpetrated by some one who wishes to have the pleasure of reading it in the papers. However, there are still all sorts of scoundrels in the world and more wickedness than we sometimes dream of.

THE TORRENS LAW.

It is to be hoped that the Legislature will not allow other bills of less importance to cause the sidetracking of the Torrens bill for the registration of land titles until it is too late to give it full and fair consideration.

At present there is too much unnecessary cost involved in the transfer of land. A man may have his deed duly recorded and feel absolutely certain that his title is good; but when he wishes to sell counsel must be employed to look into the details of the transfer based upon close and sometimes lengthy investigation into the certainty of the title under which the land is held.

Again, suppose a landholder wishes to borrow money, he cannot usually go into a bank and offer his deed as it is held and recorded, as collateral. The same tedious and costly method must be pursued before the loan can be effected. Why should a man not be able to transfer land or to borrow money with as little expense and trouble as if he wished to buy or sell bonds, stocks, or otther property, or to borrow money upon their security?

The only reasons why the bill should not pass are two; namely, the lawyers and a few trust and security companies, the same being the main reasons why the bill should be made a law.

CARDINAL ON MORTALITY

His Eminence Discusses Mr. Edison's Views and Refutes Assumptions.

Cardinal Gibbons, in the Columbian Magazine.

Mr. Edison's real view seems to be that a man's intelligence is composed of the combined intelligence of his brain cells. He expresses this, practically, later in his interview; and this saves him from some of the consequences of his former loose expressions. But how does Mr. Edison know that a man's intelligence is made up of the combined intelligence of his brain cells? He claims to have reached his conclusions "through the study of hard fact;" we wish he, in scientific fashion, had given his facts to the world before his conclusion. The facts are these—at least until Mr. Edison produces new facts as yet unknown to the scientific world, no one knows anything about the existence of an intelligent cell. No proof, not the slightest, has ever been advanced to show intelligence in a cell. So far as science knows, there is no more proof of the existence of intelligence in a brain cell than there is in the cells of a potato or in the molecules of matter that make up this paper. We do know there is a connection between the brain and the mind; that the mind thinks through the aid of the brain, as it sees through aid of the nerves of the eye; but that does not prove the brain thinks any more than it proves the nerves of the eye see. No more even than it would prove that the strings of a violin enjoy their own music. If we do not know that cells have intelligence, how can we know that any combination of cells will produce intelligence? Yet Mr. Edison believes it. Assumption again; the merest assumption.

A MISTAKEN PROFESSOR

Output of Greatness In United States Favorably Considered.

New York World.

Prof. Albert Bushnell Hart, of Harvard, must have been misquoted in the dispatch from Cambridge which makes him say that "to the student delving in our political problems one fact is uppermost, the tremendous lack of big men in big places. This is the gravest possible defect of a system of popular government."

There is always a tremendous lack of big men in big places, but is it more conspicuous in the United States than elsewhere? Can any European country, for example, show 27 successive monarchs or 27 successive Prime Ministers who tower above the 27 Presidents of the United States from Washington to Taft? The question answers itself.

We do not regard Mr. Taft as a great President, but there is no English or Continental statesman whom we would accept in place of him. We do not regard Mr. Bryan as a safe political adviser, but there is no European orator who outranks him. We disagree sharply with Mr. Roosevelt's theories of government, but there is no European who equals Mr. Roosevelt in political genius or dynamic force.

There is much to be said in criticism of the United States Senate; yet it is unquestionably the greatest deliberative body in the world, with the highest average of intellect, ability and governmental sense. As for the House of Representatives, it will compare favorably with any other parliament, while the United States Supreme Court is the most exalted judicial tribunal known to human history.

Democracy necessarily breeds all sorts of political leaders, from a ward boss to a Lincoln; but in the 122 years of the American Constitution no other country has produced so many statesmen of the first rank. They have revolutionized the political ideas of the whole world.

PILES CURED IN 6 TO 14 DAYS
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

The Hungarian Crown.

The Hungarian crown worn at their accession by the emperors of Austria as kings of Hungary is the identical one made for Stephen and used at his coronation over 800 years ago. The whole is of pure gold, except the settings, and weighs almost exactly fourteen pounds. The settings above alluded to consist of fifty-three sapphires, fifty rubies, one emerald and 338 pearls. It will be noticed that there are no diamonds among these precious adornments. This is accounted for by the oft quoted story of Stephen's aversion to such gems because he considered them "unlucky."

Battle of the Herrings.

The battle of the herrings was the comical name given to a fight between an English force and a French detachment not far from Orleans in 1429. The English were conveying a large quantity of supplies, mainly herrings, for it was Lent, to the army that was besieging Orleans. The English had 1,600 men, the French 6,000. The former repulsed the assailants and saved the herrings, so the battle was named in honor of the supplies.

Willing to Take Them Back.

A letter came from the clothing firm saying that the cloth that had been sent them was full of moths. Was the wholesale house taken aback? Not it. By return post went a missive to this effect:

"On looking over your order we find that you did not order any moths. It was our error, and you will please return them at once at our expense."—Argonaut.

Couldn't Help Himself.

"He lived next door to a man for ten years without even learning his neighbor's name."

"Can you imagine anybody being so unsociable!"

"Oh, yes. You see, the warden wouldn't let them talk."—Birmingham Age-Herald.

One Consolation.

"My wife is suing me for divorce," sighed the man. "I wish I were dead."

"Cheer up, old boy. It's a whole lot better to have your wife spending alimony than life insurance."—Detroit Free Press.

WESLEY CLASS OF CENTENARY CHURCH

Highly Enjoyable Banquet At Huffine Hotel Last Night—About Forty Sunday School Men Present.

Last night at 9 o'clock in the Huffine hotel the Wesley Bible class of Centenary Sunday school, composed of about thirty men, held a most enjoyable banquet. In addition to the class members the pastor, presiding elder and about a dozen visitors from the Sunday school were present and at the conclusion of the final course a number of impromptu speeches were made.

The banquet, which consisted of five courses, was served in elegant style. Cigars were passed around and Mr. C. C. Hudson, president of the class, introduced the teacher, Mr. B. E. Smith, who acted as toastmaster.

Among those who responded were Messrs. C. C. Hudson, E. E. Bain, B. E. Jones, Bynum Merritt, Mr. Sharpe, J. W. Merritt, Mr. Beary, C. W. Yost, T. A. Glascock, A. A. Johnson, John Lewis, Rev. D. M. Litaker and Rev. W. R. Ware. The addresses were brief, but full of inspiration to all present and added greatly to the social side of the evening. As a result of the banquet each member of the class will no doubt feel inspired by the lofty thoughts thrown out by the speakers and will thus enter upon the class work with added zeal.

This class was organized about 6 months ago and is composed of men who formerly did not attend Sunday school regularly. In the class are aldermen, carpenters, grocers, drummers, clerks, and in fact men of nearly all callings. Since it was organized the members have become regular attendants. C. C. Hudson is president, E. E. Bain secretary-treasurer and B. E. Smith teacher. It is hoped to increase the membership to 50 by April 1 of this year.

Fine Showing Made.

The first quarterly conference of the Christian church was held last night at the church. The reports of the several officers for the quarter were highly satisfactory especially the report of the treasurer, which showed the financial affairs to be in better condition than at any first quarterly conference in the history of the church.

Hunting Licenses.

During the time he has been in office Clerk J. W. Forbis has issued hunting licenses to 77 hunters, sending to the state treasurer yesterday the fees collected—770. The licenses were to northern hunters who come down to hunt in Guilford. And a number had been issued by Clerk Ernest Clapp before Mr. Forbis began his term.

Died In Springfield, Ill.

WOMAN IN PRESS PIT

Texas Correspondent Admitted To Gallery At Capitol.

Washington Herald.

The unusual sight of a woman occupying a seat in the Capitol press galleries was witnessed yesterday, when Miss Mary Kouncelor Brookes, the Washington correspondent of the Forth Worth Record and the Houston Post, exercised her privilege as a member of the press gallery.

Miss Brookes has been in Washington for some time as correspondent of these papers, but did not make her request for admission to the gallery uutil 10 days ago, when she was promptly admitted by Maurice Splain, chairman of standing committee of correspondents. She has been cordially welcomed by other members of the gallery, and it is predicted that her presence there will contribute a pleasing novelty to the daily routine of newspaper work.

Miss Brookes wins this honor after only four years' newspaper experience during which time she has made a brilliant record in both editorial and reportorial work. Entering the service of the Fort Worth Record four years ago in the capacity of society editor, she quickly developed an ability for varied newspaper work.

One of the striking features of her work on the Record was her dramatic and musical criticisms, in the course of which she established the first Sunday dramatic page in Texas journalism. Within 18 months her skill in political reporting led the managing editor, Clarence Ousley, one of the most brilliant editorial writers in the South, to utilize her abilities on the editorial page.

The natural outcome of successful experience in that work led to her appointment as Washington correspondent for her papers. Since she has been in Washington Miss Brookes has landed several notable beats for her papers, and thoroughly justified the use of women as political correspondents.

Miss Brookes is a native of Texas. Her father was the late H. H. Brookes, editor and publisher of the Amarillo Champion, so she comes naturally by her newspaper faculty.

Taken Suddenly Ill.

Owen Trogdon, the 10-year-old son of Mr. and Mrs. S. L. Trogdon, was suddenly taken ill yesterday afternoon at the home of his parents on Battle Ground avenue. At last reports he was resting well.

Death of Infant.

The two months' old child of Mr. and Mrs. Arthur Byrd, 46 Vine street, Proximity, died early yesterday morning. The funeral took place yesterday afternoon at 4 o'clock and was conducted by Rev. K. C. Horner. The interment was at Proximity cemetery.

He Chose Quickly.

"Gerald," she said, facing him with heightened color and putting her hands behind her, "you will have to choose between me and your old pipe."

Not an instant did Gerald hesitate. "The old pipe goes, dear," he said, throwing it away. "I was thinking of buying a new one anyhow."—Chicago Tribune.

Look Up.

We dig and toil, we worry and fret, and all the while close over us bends the infinite wonder and beauty of nature, saying: "Look up, my child! Feel my smile and be glad!"—G. S. Merriam.

Very Different.

Mrs. Bronson—My husband is plain spoken. He calls a spade a spade. Mrs. Woodson—So does mine, but I must decline to repeat what he calls the lawn mower.—Boston Globe.

DAILY GAIN IN WEIGHT.

Comes to Those Who Use Samose, Says Druggist Howard Gardner.

The poor, thin, emaciated person, when he or she becomes plump, rosy and robust by using Samose, forgets that there is such a thing as weakness and underweight.

Samose restores health to the whole system so that the tissues assimilate from the food all of those elements which make solid bone, firm muscle, pure blood, and sufficient fat to restore beautiful and symmetrical outlines to the figure.

An increase in weight is seen from the first week's use of Samose, but if it does not restore you to your proper weight and give you full vigor and vitality, Druggist Howard Gardner will return your money. You certainly can afford to try Samose on this guarantee.

Help the orphans by going to the Smith Memorial building Friday evening. You can get a good supper for ten cents, be highly entertained with pretty tableaux and good music. Send the children in the afternoon and let them have a good time riding in automobiles. It costs only five cents, then they can buy cream, cake and home-made candy.

We have in stock several dozen pairs of men's and women's shoes that are solid and all right but for some reason or other are "slow sellers." Now, we haven't got any room in this store for slow sellers and have marked these shoes so low that they are going to "move on" at a lively rate. Ask to see them next time you come in. Maybe you will find just what you need, and if so you can save from fifty cents to a dollar on a pair.

In a few weeks you will be wanting slippers for your little girls. They are sure to want a pair as soon as it turns warm, and here's where you can save money again. We carried over about fifty pairs from last season and are going to close these out cheap if possible before the new stock comes in. Ther are also three or four dozen pairs of women's slipeprs from last season to go at very much reduced prices. The cut price sale of girls' shoes is still going on, and we still have nearly all sizes, but they are going fast now.

THACKER & BROCKMANN.

The ladies will serve supper at the Smith Memorial building next Friday evening. For 25c. you get chicken salad, beaten biscuit, pickles, celery and cold boiled ham, and for a little more you can add coffee, ice cream and cake, and all of the very best make. Give your cook a rest and take supper with the ladies and help the little orphans.

New Ginghams, new Galateas, new white Madras, new white Dimities, new Kimona goods, new Percales, new white linen and linen finish goods, new Flaxon and new white Poplin at Thacker & Brockmann's.

Black Panama Skirts, $5.00, $5.50, $6.00 and $7.00; Black Serge Skirts, $6.00, $8.00 and $9.00; Black Voile Skirts, $9.00 and $10.00; Navy Blue Panama Skirts, $5.00, $7.00 and $7.50; Navy Blue Serge Skirts, $5.00 and $5.50. Thacker & Brockmann.

Plant Bed Cloth—plenty of it here now, better get it early, then you will have it when you need it. Thacker & Brockmann.

Lunch Room Repartee.

The young man with the iron cheek entered the quick lunch room and seated himself at the third table.

"Belinda," he called familiarly, "you look fresh this morning."

"Not half as fresh as some others," retorted the pretty waitress, with an elevation of her nose.

"Well, well! Have you calf brains?"

"If I did you wouldn't order them, for you have an oversupply now."

"My, but you are getting good for the matinee! With the high price of meats eggs come in handy these days, don't they?"

"No; they come in crates."

"Wow! Did you ever hear the story of the cold porridge? Well, it's on you!"

There was an unexpected tilting of a dish, and the young man with the iron cheek was showered with oatmeal.—Boston Post.

Consolation.

A little girl of thirteen or so found herself one day possessed of a new emotion—a desire to be pretty. She struggled with it, but finally went to the long mirror in the hall and for the first time in her life looked at herself critically from head to foot. She saw what most girls see at thirteen—a lanky creature, mostly legs and arms, hands and feet. It hurt her, and she went out of doors to think it over. Thought resulted in tears, and in tears she was found half an hour later by her particular chum, a boy near her own age. Anxious inquiry as to why she was crying induced her to speak.

"Oh, Harold," she wailed, "I've just looked at myself in the glass, and I'm so homely!"

The boy was puzzled, but sympathetic, and made an effort at consolation. He looked at her a minute, then awkwardly patted her, saying soothingly:

"Not homely, Alice; just funny looking."—New York Times.

SPEEDY RELIEF FROM KIDNEY TROUBLE.

"I had an acute atack of Bright's disease with inflammation of the kidneys and bladder and dizziness," says Mrs. Cora Thorp, Jackson, Mich. "A bottle of Foley's Kidney Remedy overcame the attack, reduced the inflammation, took away the pain and made the bladder action normal. I wish everyone could know of this wonderful remedy." Howard Gardner.

Tortured For 15 Years.

by a cure-defying stomach trouble that baffled doctors, and resisted all remedies he tried, John W. Modders, of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said, "he can't live much longer." "Whatever I ate distressed me," he wrote, "till I tried Electric Bitters, which worked such wonders for me that I can now eat things I could not take for years. Its surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at Fariss-Klutz Drug Co.

MAY PROVE FATAL

When Will Greensboro People Learn the Importance of It?

Backache is only a simple thing at first;

But when you know 'tis from the kidneys;

That serious kidney troubles follow;

That dropsy, Bright's disease may be the fatal end.

You will gladly profit by the following experience.

'Tis the honest statement of a sufferer who was cured.

Mrs. William Welborn, 720 S. Hamilton St., High Point, N. C., says: "At the time I began using Doan's Kidney Pills, I was suffering from kidney trouble in its worst form. The complaint had been coming on me gradually for three years. There was a constant ache in the small of my back and the kidney secretions were unnatural. I suffered from headaches and dizzy spells and I slept so poorly at night that when I got up in the morning, I was hardly able to drag myself about. Doan's Kidney Pills were so highly recommended to me that I finally gave them a trial and I cannot fully describe the complete change that took place. I gradually grew better and before long I was well. I have not been troubled since."

QUALITY OF ADAPTABILITY.

Jere H. Wheelwright, New President of the Consolidation Coal Company.

Manufacturers' Record.

The election of Mr. Clarence W. Watson to be United States Senator from West Virginia has just at this time focused attention upon an exponent of the equally valuable quality in success—adaptability—in the person of an associate of Mr. Watson for some years, Mr. Jere H. Wheelwright, of Virginia birth. Trained to the law and practicing for a few years on the Pacific Coast Mr. Wheelwright, just chosen as the successor of Mr. Watson in the presidency of the Consolidation Coal Company, became in the early nineties the private secretary of United States Senator Camden, of West Virginia. That led to his employment in connection with Senator Camden's coal and railroad properties in West Virginia. As superintendent of one group of mines for Mr. Camden and lessee on his own account of another, Mr. Wheelwright made it his business at the age of 30 years to acquaint himself with everything pertaining to coal mining, even to working as a miner under ground. Twelve or thirteen years ago he and Mr. Watson became associated in mining enterprises, and five years later they came prominently to the front in their purchase of the Baltimore & Ohio holdings in the Consolidation Coal Company. Now that corporation, with which others have been consolidated, holds properties aggregating sevral hundred thousand acres of coal lands in Maryland, West Virginia, Pennsylvania and Kentucky, and only a few months ago it announced its acquisition of 100,000 acres in the famous Elkhorn coking-coal fields in the last-named State, an undertaking involving plans for the expenditure by the coal company and railroads and others of $15,000,000 or $20,000,000, directly or indirectly. The lawyer has become a master-man in the coal industry of the world.

Mr. Wheelwright has been quoted to the effect that this day of corporation activities is as full of opportunity for brains and energy as were the days of simpler activities. He talks by the book. His success, a clearly written result of the application of brains and energy to the matter at hand, is of the latter-day order. What he says he has done, others can do.

Falls Victim to Thieves.

S. W. Bends, of Coal City, Ala., has a justifiable grievance. Two thieves stole his health for twelve years. They were a liver and kidney trouble. Then Dr. King's New Life Pills throttled them. He's well now. Unrivaled for Constipation, Malaria, Headache, Dyspepsia. 25c. Fariss-Klutz Drug Co.

In Case of Accident.

"Annabel always uses such dangerously long hatpins."

Yes, but she's careful to sterilize them."—Cleveland Plain Dealer.

LA GRIPPE COUGHS.

Strain and weaken the system and if not checked may develop into pneumonia. No danger of this when Foley's Honey and Tar is taken promptly. It is a reliable family medicine for all coughs and colds, and acts quickly and effectively in cases of croup. Refuse substitutes. Howard Gardner.

The coffee mother used to make has furnished the grounds for many a divorce suit.

The Handkerchief Came From Italy.

A writer in a French review points out that the handkerchief does not come to us from China, as has been generally believed, but from Italy. It is only 300 years ago that the handkerchief of a Venetian lady was considered a great curiosity. The handkerchief crossed the Alps and was received with great favor at the court of France. Handkerchiefs were then made of cambric or lawn and bordered with Venetian or Alencon lace. Under Henry III. of France the sachet was introduced. The handkerchief was taken into Germany a little later and was known as the "fazelletin," after its Italian name. Only persons of quality used it, and an edict in 1595 was published at Dresden interdicting the use of the handkerchief among the trading classes.—London Globe.

Careful of His Gun.

In one of the small mountain towns of Kentucky lived Dan, a half wit, with whom the boys often went hunting. On one of these trips Dan and the young man with him were between two hills when a rabbit jumped up in front of them and ran up the hill to Dan's right. The other fellow, being on Dan's left, did not wish to take the chance of shooting at the rabbit for fear of an accident, so he said: "There he goes, Dan! Shoot him, shoot him!" But Dan simply stood still and watched the rabbit disappear over the hill, and his partner wanted to know why he didn't shoot. After a moment's silence he answered, talking through his nose: "Did you take me for a fool? Do you think I was going to strain my gun shooting uphill?"—Judge.

An Open Letter.

Kernersville, N. C., Jan. 4, 1911, Vick's Ramily Remedies Co., Greensboro, N. C. Gentlemen:—I have used your Croup and Pneumonia Salve for spasmodic asthma and find it superior to anything I have ever tried. I cheerfully recommend it to any one suffering with this disease. Yours truly, Geo. W. Wilson.

Diverging.

Hubby—I'm afraid I'm becoming cross-eyed, my dear.

Wifey—The idea! Why do you think that?

Hubby—This thing of trying to look at my income and our expenses at the same time is slowly but surely getting in its work.—Philadelphia Bulletin.

PNEUMONIA FOLLOWS A COLD.

But never follows the use of Foley's Honey and Tar, which checks the cough and expels the cold. M. Stockwell, Hannibal, Mo., says: "It beats all the remedies I ever used. I contracted a bad cold and cough and was threatened with pneumonia. One bottle of Foley's Honey and Tar completely cured me." No opiates, just a reliable household medicine. Howard Gardner.

"I hate to have people walk all over me," complained the virgin snow. "So do I. I can't bear people who do that," agreed the thin ice.

MARK TWAIN

1/2 Price

A New Edition

Now for the first time you get a complete set of all Mark Twain's writings at just exactly one-half the price they have ever been sold before. This is a new edition, just as complete as the old one, which still sells, by the way, at $50.00. This new edition is only $25.00—for the 25 volumes.

It had been Mark Twain's ambition to have his books in every American home, and he made a great personal sacrifice to bring about this remarkable opportunity—for the first time in the history of publishing, copyrighted books are sold at the price of non-copyrighted books—the chance will not come again.

But for Mark Twain's action this would have been impossible. Never before has a copyrighted library set of a standard author's works been issued at such a low figure.

His Complete Works—25 Beautiful Volumes

Brander Matthews says: "Mark Twain will be included in that group of writers headed by Molière and Cervantes. With the exception of Count Tolstoi, Twain was the greatest of recent modern writers, and will be handed down to posterity through the trio of his works 'Huckleberry Finn,' 'Tom Sawyer,' and 'Pudd'nhead Wilson.' Twain is a greater stylist than Stevenson or Thoreau, and his 'Man that Corrupted Hadleyburg' is one of the finest works in English literature." Mark Twain himself wrote a preface to this edition. Brander Matthews has written the biographical criticism of Mark Twain and his work. There are portraits of the author at periods when the different books were in process of writing.

There are beautiful pictures by such artists as Frost, Newell, Smedley, Thulstrup, Clinedinst, Kemble, and Opper. The binding is in rich red rep silk book cloth, with title labels stamped in gold. The books are printed on white antique wove paper, especially made for this edition. Each volume is of generous size and bulk, 5x7¼ inches.

WELL KNOWN MINISTER

Restored to Health by Vinol.

Rev. D. Schneider, who is a well-known minister in Rice Lake, Wis., writes:

"I had a very severe stomach trouble last year from which I was kept in bed three months. I had engaged the services of a doctor, but to no avail. I then read of Vinol and determined to try a bottle. Before it was used up I was out of bed, and four bottles made me a well man. Vinol is a splendid medicine and I can gladly recommend it."

Prominent men from all over the country do not hesitate to indorse this wonderful tonic.

For twelve years Vinol has been sold on the "money back" plan and every year strengthens it's popularity and proves by continued tests that it will do what we claim for it. Fariss-Klutz Drug Co., Greensboro, N. C.

Shall we Rejoice

Gladness comes with a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed and assisted by the pleasant laxative remedy Syrup of Figs and Elixir of Senna.

Its beneficial effects are due to the fact that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. To get its beneficial effects always buy the genuine manufactured by the California Fig Syrup Co.

The Field Secretary Tells of Growth of the Boy Scouts of America.

Preston G. Orwig, field secretary of the Boy Scouts of America, who has traveled in various parts of the country, aiding in the organization of patrols and troops of Boy Scuots of America, writes thus about the development of the movement in this country:

"Since the opening of National Headquarters of the Boy Scuots of America on the 12th of June, 1910, the movement has spread with wonderful rapidity. Today, there are 4,000 Scout Masters actively at work in every state in the Union, more than 2,000 of whom have already registered at the National Headquarters. Porto Rico and the Philippine Islands have both set up exceptionally strong pieces of work. A Scout Commissioner for the Panama Canal Zone was appointed last week, which will mean the organization of the sons of the men who are building the Panama Canal.

"It is estimated there are at present 300,000 Boy Scouts in the country. Patrols of troops have been set up in practically every organization dealing with boy life—such as churches, Sunday Schools, Young Men's Christian Associations, Boys' Clubs, Playgrounds, Young Men's Hebrew Associations and Young Men's Catholic Associations. The fact that it is not opposed to existing organizations does much towards securing the co-operation of the leaders of boys throughout the country.

"While the growth has been remarkable, care has been taken to insure the permanency of the work by insisting on the highest type of leaders and adult supervision. The men who act as Scout Masters, must furnish the strongest kind of references before they are permitted to organize their boys and be recognized by National Headquarters."

Wreck on A. C. L. Delays Southern Train.
